

DP10F/DP20F/DP30F

Basic systems 9 W/18 W/27W

The innovative pulsed fibre lasers offer unprecedented efficiency and compactness. The small dimensions of the laser head, deflector unit and supply unit make integration much easier in, for example, small machines. The high level of pulse-to-pulse stability during material processing is a further advantage of this new type of light source.

Advantages

- Long working life of the laser diodes means little servicing
- Small compact air-cooled lasers
- Excellent laser beam quality
- Output power 9 W/18 W/27 W
- Single-phase mains connection
